SUMMARY

A passionate software engineering student with hands-on experience building production-grade systems. I have strong focus on backend development, full-stack systems, and with a commitment to continuous learning.

EXPERIENCE

Software Developer Intern

Mar 2025 - Jun 2025

Unity Labs AI

- Engineered a Premiere Pro Auto-Edit plugin from design to delivery, integrating UI, UX, and automation logic.
- Reduced multi-cam podcast editing time from 3 hours to under 8 minutes through timeline-aware intelligent cuts.
- Delivered deployment-ready build binaries, optimized for stability, scalability, and professional-creator workflows.

Software Developer Intern

Jun 2024 - Feb 2025

Front Interactive Pvt. Ltd.

- Developed two production-level internal applications from end-to-end with full functionality and architecture.
- Worked on integrating feature enhancements, system architectures, and optimizations with over 10 developers.
- Wrote technical documentation that helped increase the efficiency of new user onboarding.

PROJECTS

Trimly.ai | *Next.js, LLaMA 3.2, Ollama, Node.js, pdf-parser* | [GitHub](#)

- Created an AI-powered tool that condensed PDFs and stories based on user time and mood preferences.
- Implemented semantic logic preserving 90% structure while shortening text by 30-70%, boosting readability.
- Delivered 5x faster content review, enhancing productivity for students and professionals.

Acethletics | *Next.js, React Native, Node.js, MongoDB, Socket.io* | [Live Demo](#)

- Built a college sports management app supporting live match tracking and event coordination.
- Integrated WebSockets for real-time updates and developed an admin dashboard for 10+ sport events.
- Engaged 200+ players and garnered 2K+ downloads within launch week through interactive UI design.

QuickFuel | *React.js, Node.js, MongoDB, Express.js, JWT, Socket.io* | [Live Demo](#)

- Designed an on-demand fuel and vehicle service web platform with GPS scheduling and order tracking.
- Structured a scalable backend architecture capable of handling high-traffic operations reliably.

EDUCATION

ACE Engineering College

B.Tech in Computer Science and Engineering

Hyderabad, IN

Nov 2022 - May 2026

SKILLS

- **Core Programming:** Java, Python, C, JavaScript, TypeScript, Data Structures & Algorithms, SQL
- **Technologies & Frameworks:** Next.js, Node.js, React.js, React Native, NestJS, Express.js, Tailwind, Socket.io, Framer Motion, GSAP, Three.js/R3F
- **Systems & Data:** REST APIs, WebSockets, JWT Authentication, Prisma, PostgreSQL, MySQL, MongoDB, Redis
- **Tools & Cloud:** Git, GitHub, Docker, AWS, CI/CD Pipelines, Postman, Figma, Supabase

EXTRA-CURRICULAR

- Collaborated as the team lead for TEDxACEEC Web Dev in creating and maintaining the official event site for ticketing and promotional purposes.
- Organized Acethletics 2024, with over 100 participants organized in technical and creative divisions.
- Runner-Up Secured in UiPath Hack-a-Bot 2023 for developing an effective and strong automation tool of this kind.
- Reached Finalist stage in Yukti Innovation Challenge 2023 with innovative startup idea.
